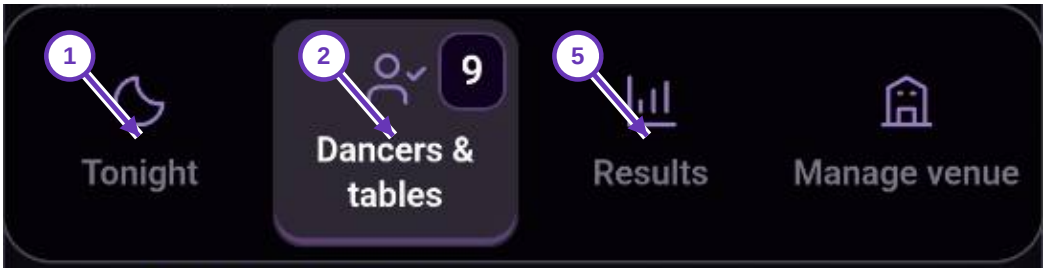
Managers & talent

Duty manager - accurate roster, prompt responses, clear handover



App navigation reference; arrows match the numbered tasks below. Earlier screenshot layout.

1. Open the shift. Tonight > Refresh. Review Working now, Table requests, Guest list, VIP requests and Ride requests. Assign coverage.

2. Keep the roster accurate. Dancers & tables > search/filter > portrait for profile; (...) for actions. End check-in when a dancer leaves. Remove access only when intended.

3. Record table outcomes. (...) > Request details > Mark seen > Mark arrived > Complete. Use Didn't arrive at table or Dismiss when that is the actual outcome.

4. Handle guest demand. Guest list > Scan pass > verify > Admit guest & redeem pass. VIP: check availability > Confirm request / Decline. Contact pickup guests, then update Ride status.

5. Review and hand over. Results: choose club/period before comparing. Keep rank details with managers. Hand over open requests, pending reviews and the next owner.

Remember: Seen is not arrived. A request is not a booking. Clearing a notification does not finish the task. VIP guests sign in at /vip.

Need help? For a queue error, refresh and check the existing record before repeating an action. Report club, time, reference and message.

Manual pp. 13-22, 38 | www.mydancr.com | Keep this guide with your onboarding notes.
