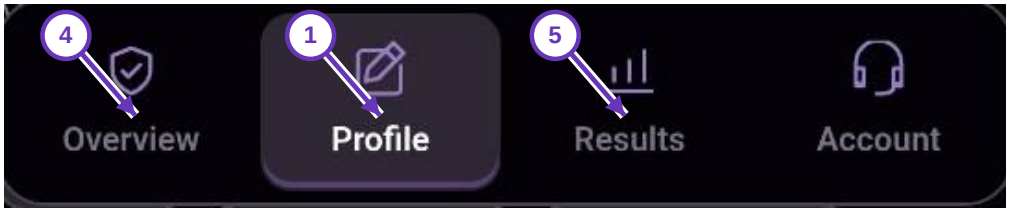
Dancers

Your profile, your uploads and your working status



Earlier owner-supplied app capture. Arrows match numbered steps.

1. Build your profile. Save stage name and city. Add at least 3 photos total, including a main photo. Your avatar is created from it.

2. Upload compliant files. Photos: Gallery / Camera; JPEG, PNG, WebP, HEIC or HEIF, up to 25 MB. Video: both permissions > Choose video / Record video; vertical/square MP4, WebM or MOV, 1-30 seconds, up to 25 MB.

3. Finish onboarding. Accept the agreement, complete Verify 18+ if required, then tap the club sticker. This connects pending media to your club reviewer.

4. Manage your shift. Choose Internal only, External only or Both. Overview > Working Now. Leaving: End Working Now > Yes, end now. Up to 6 hours, then a 6-hour cooldown; retapping does not extend it.

5. Check activity and visibility. Results shows your activity. Profile > Visibility & sharing: Incognito hides content; Make profile public restores eligible content; Copy link shares your profile.

REMEMBER Only you in the upload; follow coverage rules; no logos, watermarks or contact details. Pending content is private until human approval.

IF BLOCKED Rejected? Read the reason and correct it. Wrong-account warning? Recover the original account. Never share passwords or ID files with club staff.
