Managers and Talent Management

Sign in personally, confirm the club, refresh and read the previous handover. Assign each open queue to an employee.

Roster	Dancers & tables > search > All affiliated/Working now > Internal/External. Confirm availability directly.
Table request	Details menu > Mark seen > check with dancer > Mark arrived / Didn't arrive at table > Complete. Dismiss if cancelled.
Guest list	Tonight > Guest list > Visit date > name/phone/email > Search. Dashboard shows records; door admission is separate.
VIP	Invite guest > email > Send invitation. Requests > check date/time and dancers > Add message > Confirm request / Decline.
Rides	Ride requests > Call guest > actual dispatch coordination > Contacted > Arranged > Completed or Cancelled.
Contacts	Check Shared for and Email/Text update badges. Visit details are not a general marketing subscription.
Handover	Record unresolved reference, last action, next action, owner and time. Check media/support issues and sign out on shared devices.

Remember. Seen is not arrived. Requested is not confirmed. A stale list is not proof of current status. Refresh before retrying a conflicting action.

Ready for the role. Can find a dancer, explain table states, find a guest, process a VIP decision and write an actionable handover.
